

Although the Marriage and Family Therapy program is a challenging and time-consuming 18 months, I would do it 10 more times because of how rewarding the experience has been! Throughout the program, I felt a constant support from both the program staff and from my internship supervisor to succeed and answer any questions or concerns I had. One of my favorite parts of the program was having a small cohort which allowed us all to work together and have a family-like feel as we all encouraged each other through all the various aspects of the program. Having known I wanted to be a Marriage and Family Therapist since I was a Junior in high school, I was worried that the career wouldn't be all that I had anticipated it to be, but this program showed me that it was just as rewarding as I had expected! The internship has prepared me for my career as an MFT and I will forever cherish the experiences I had and friendships I created throughout this program.
