RESEARCH STATEMENT

My research focuses on the influence of parents on adolescents' and young adults' socio-emotional development. In particular, I investigate the impact of culture on parents' beliefs and behavior, and my research has involved studies of both Mexican American and Chinese families. Through my current and future research, I aim to understand ethnic differences in parenting and the ways in which children's understanding about ethnic diversity influences their positive behavior. I study these research questions across relationships and contexts (i.e., within individuals, dyads, families, and ethnic groups). I also explore and use research methods (i.e., statistical models) and approaches that capture similarities and differences in parenting and behavior at individual, familial, and cultural levels.

EDUCATION

Social Psychology | San Francisco State University

M.A., 2017

Advisor: David Matsumoto, Ph.D.

Psychology | Smith College

B.A., 2014

Minors: East Asian Studies

PREVIOUS POSITION

Graduate Research Assistant and Lab Coordinator | San Francisco State University

2015-2017

Parents and Youth Studies Project, PI: Jeff Cookston, Ph.D.
